Need Help in Space Planning and Design?

As you may already be aware, United Stationers has transitioned to a new furniture specification services model.

Here are some key details concerning the changes to United Stationers Space Planning and Design Services.

KiSP Technical Services has been selected as your first point-of-contact for new space planning and design requests.

KiSP charges \$30 an hour for space planning and design services, a rate well below the industry average. All revisions will be charged at \$30 an hour as well.

Please note to offset this, United Stationer resellers who ultimately place an order based on a KiSP drawing are eligible to receive from United Stationer a credit for 50 percent of their invoice amount from KiSP, up to \$100.

If you should have any further questions related to United's transition of their space planning and design services, please feel free to contact the **United Furniture BID and Quote Team** at: 1-800- 733-4000.

We can compliment your specification with various types of renderings similar to the ones shown above, which are inexpensive, efficient and fast. Starting at a low price of \$30 each.

Here is a list of just a few manufacturers we can specify for you:

Alera	Bush	Edsal	Iceberg	Office Star	Star Quality
Amplivox	Balt	Fleetwood	Jonti	Safco	Tennsco
Basyx	Craft	Fireking	Mayline	Samsonite	Tiffany
Barrics	Diversified	Global	Maxon	Sandusky Lee	Virco
Bretford	DMI	HON	Metal Box	Sentry	Plus more...
